The H₂ Series

Optimal Hydrogen Performance

UltraWater: The Best Filtration

The only ionizer filter capable of removing virtually all contaminants up to 99.9% - including even the toughest such as arsenic and other heavy metals, chromium VI, pharma and more.

Advanced SmartDesign Electrodes

Our *SmartDesign Electrodes* are engineered to deliver top performance, absolute reliability and to run with maximum efficiency and lasting durability.

Improved DARC II Cleaning

DARC II cleans your ionizer with every use. It helps ensure that the most critical component of the ionizer stays free from damaging scale buildup, ensuring top performance. You never have to wait for a cleaning cycle. Ultimate convenience.

Flow Control System

Optimal flow rate is critical to achieving optimal hydrogen performance. The H₂ Series provides superior flow control with a flow control valve and LCD display. You select the flow rate that's right for your water quality.
